

FORMULA 620
CARPET & SHEET VINYL ADHESIVE REMOVER
 LOW ODOR / NON FLAMMABLE / NON HAZARDOUS

Product Description

Sentinel 620 Carpet & Sheet Vinyl Adhesive Remover Concentrate is the complete product for easily removing carpeting or for stripping the toughest latex and acrylic adhesives from all floor surfaces. 620 is a highly concentrated product which can be used straight or diluted with hot water, depending on the job.

Application Information (Always follow product label instructions for best results)

DIRECTIONS:

REMOVAL OF LATEX, ACRYLIC AND PRESSURE SENSITIVE ADHESIVES:

620 may be used straight or diluted with water up to 4:1

Step 1: Apply 620 directly onto adhesive. Use a broom, mop or squeegee to agitate and maintain even coverage while keeping the surface wet. Allow 626 to soak and penetrate for 30-60 minutes.

Step 2: Scrape softened adhesive from the floor with a razor scraper. Repeat steps 1 and 2 if necessary. Dispose of all waste.

Step 3: Rinse the sub-floor thoroughly with clean water. Allow surface to completely dry.

REMOVAL OF SHEET VINYL/ LINOLEUM BACKING:

Once the wear layer is removed, mix 3 parts HOT water to 1 part 620 and apply directly to the remaining backing. Maintain even coverage and a wet surface for 1-2 hours or until backing/ adhesive can be easily removed together with a floor scraper. Rinse the surface with clean water and allow to dry.

REMOVAL OF CARPETING:

Using a utility knife, cut the carpeting into 12" strips, making sure to cut through the carpeting to the sub-floor. Mix 3 parts HOT water to 1 part 620 and pour directly onto carpet. Maintain even coverage and completely saturate carpeting. Allow to soak for 4 hours, or overnight. Remove carpet strips and follow latex removal steps for removing remaining adhesive.

COVERAGE:

Expect coverage rate of 70 sq. feet per gallon for adhesive removal with a 4:1 dilution.

V.O.C. CONTENT:

This Floor or Wall Covering Adhesive Remover contains less than 5% V.O.C. content by weight, in accordance with the requirements set forth by the California Air Resource Board (CARB) and Ozone Transport Commission (OTC), effective 1-1-2009.

PROPERTIES

Physical state: Liquid

Appearance: Clear

Color: None to amber

Odor: Slight Odor

pH: Not Applicable

Boiling Point: 212° F.

Flash Point: None to boiling

* When determining VOC content in accordance with the requirements set forth by the Ozone Transport Commission (OTC), effective 01-01-2009

HAZARD RATING: HMIS
 HEALTH 1
 FLAMMABILITY 0
 REACTIVITY 0
