335

RIOT CONTROL AGENT
NEUTRALIZER

Neutralizes CS Residue
Use for Decontamination
Ready To Use

PRODUCT DESCRIPTION

Sentinel 335 Riot Control Agent Neutralizer is a professional strength cleaner and neutralizer used to remove tear gas residue in areas where tear gas has been used and property and building surfaces are contaminated.

Sentinel 335 is safe for use on most common surfaces and neutralizes the actives found in tear gas residue, allowing for the safe decontamination of the area. 335 can also be used for content cleaning and is safe for use on most washable fabrics and soft goods.

USAGE GUIDELINES

Read directions thoroughly prior to use. Test product on an inconspicuous area to assure desired results when using on soft goods or upholstery. Sentinel 335 Riot Control Agent Neutralizer may be used as a pre-spray or as a wet mist in a truckmount vacuum line.

DIRECTIONS FOR USE (FOR PROFESSIONAL USE ONLY.)

Do not enter the affected area until the air quality is such that a respirator is not needed for admittance. Vacuum using a wet/dry vacuum with 2"- 3" of Sentinel 335 in the tank to deactivate the residue. Vacuum the walking surfaces first and then work upward removing gross residues on furniture and walls.

Wipe down objects that cannot be vacuumed using Sentinel 335. After all surfaces and objects have been wiped down use an extraction shampoo to clean the upholstery (first) and carpeting (last) prior to leaving the room.

Prior to final inspection use either Sentinel 522 Smoke & Odor Cleaner & Destroyer or Sentinel 531 Smoke & Odor Counteractant to freshen the air.
