

FORMULA 207W
CARPET & SHEET VINYL ADHESIVE REMOVER
 LOW ODOR / NON FLAMMABLE / NON HAZARDOUS

Product Description

Sentinel 207W Carpet & Sheet Vinyl Adhesive Remover is the complete product for easily removing carpeting or for stripping the toughest latex and acrylic adhesives from all floor surfaces. 207W's unique formula penetrates quicker, dissolves better and is easier to use than all other removal products.

Application Information (Always follow product label instructions for best results)

DIRECTIONS:

REMOVAL OF LATEX, ACRYLIC AND PRESSURE SENSITIVE ADHESIVES:

207W may be used straight or diluted with water up to 4:1

Step 1: Apply 207W directly onto adhesive. Use a broom, mop or squeegee to agitate and maintain even coverage while keeping the surface wet. Allow 207W to soak and penetrate for 30-60 minutes.

Step 2: Scrape softened adhesive from the floor with a razor scraper. Repeat steps 1 and 2 if necessary. Dispose of all waste.

Step 3: Rinse the sub-floor thoroughly with clean water. Allow surface to completely dry.

REMOVAL OF SHEET VINYL/ LINOLEUM BACKING:

Once the wear layer is removed, mix 3 parts HOT water to 1 part 207W and apply directly to the remaining backing. Maintain even coverage and a wet surface for 1-2 hours or until backing/adhesive can be easily removed together with a floor scraper. Rinse the surface with clean water and allow to dry.

REMOVAL OF CARPETING:

Using a utility knife, cut the carpeting into 12" strips, making sure to cut through the carpeting to the sub-floor. Mix 3 parts HOT water to 1 part 207W and pour directly onto carpet. Maintain even coverage and completely saturate carpeting. Allow to soak for 4 hours, or overnight. Remove carpet strips and follow latex removal steps for removing remaining adhesive.

COVERAGE:

Expect coverage rate of 70 sq. feet per gallon for adhesive removal with a 4:1 dilution.

V.O.C. CONTENT:

This Floor or Wall Covering Adhesive Remover contains less than 5% V.O.C. content by weight, in accordance with the requirements set forth by the California Air Resource Board (CARB) and Ozone Transport Commission (OTC), effective 1-1-2009.

PROPERTIES

Physical state: Liquid

Appearance: Clear
