1 U.S. Gallon (3.79L)

CAUTION: MAY CAUSE EYE & SKIN IRRITATION.  
Read precautions on back panel.

pH 6.5-7.5

**PROFESSIONAL RESTORATION PRODUCTS**

**Sentinel 586 Enzyme Cleaner & Odor Eliminator** is a biological cleaner and odor control product used to clean difficult or unknown stains from all types of soft goods such as washable fabrics and carpets as well as hard surfaces while eliminating biological odors. Sentinel 586 is designed for Categories 2 and 3 Water Damage Restoration. Sentinel 586 has a pH of 6.5-7.5.

**Usage Guidelines:** Use Sentinel 586 to remove difficult stains like urine, feces, decay, blood, vomit, soda, wine, inks, alcohol, coffee, juices, pet stains, and burnt food soils. Also use Sentinel 586 to eliminate odors from sewage projects.  
**Directions for Use: (For Professional Use Only.)**

Read directions thoroughly prior to use. Test in a small inconspicuous area prior to using on surface to be cleaned to ensure desired results. Do NOT use if color transfers or is altered. Sentinel 586 can be applied with a low pressure sprayer, pump sprayer, or bucket washing applications at full strength or 1 part Sentinel 586 to 4 parts clean water. Mix product in applicator and apply solution onto surface. Allow product to soak for a few minutes and then agitate the affected surface with a brush or sponge and rinse with clean water. When removing tougher stains, soils, and odors allow full strength product to soak for up to 24 hours and then rinse.

On categories 2 and 3 water losses use Sentinel 586 at full strength for odor elimination and contaminate cleaning.  
**Standing water:** Apply 2 gallons of Sentinel 586 per 400 sq. ft of 1 foot depth (the equivalent of approx. 3000 gallons.)  
**Dry or damp residual contaminates:** Mix 1 part Sentinel 586 to 1 part water in a pump sprayer. Saturate area. Allow surfaces to remain visibly wet. After 30 minutes contaminate degradation will begin. Product should be used in environments between 50-120°F. Ensure environment is not contaminated with disinfectants like chlorines, quats, and peroxides as these will deactivate Sentinel 586. Ensure all physical cleanup adheres to IICRC's S-500 Guidelines found at [www.iicrc.org](http://www.iicrc.org).

**Stain Removal (Colorfast carpet, fabrics and other finished surfaces):** Apply 586 mixture to area to be cleaned. Allow product to sit for 5-10 minutes for light stains and up to 12 hours for heavy stains. Use Sentinel 576 at full strength for heavy stain removal. Blot with a clean towel. Take care not to scrub the stained area. Repeat if necessary. Use an extraction machine on stained area whenever possible.  
FOR USAGE QUESTIONS OR ADDITIONAL INFORMATION, CONTACT SENTINEL CUSTOMER SERVICE AT 1-800-373-0633 OR VISIT US ON THE WEB AT [www.senpro.com](http://www.senpro.com).

**CAUTION:** KEEP OUT OF REACH OF CHILDREN. May cause eye and skin irritation. Do not use this product in a manner inconsistent with the directions for use. Avoid contact with eyes and skin. Keep container closed when not in use. Store and transport in upright position. KEEP FROM FREEZING.

**FIRST AID:** If taken internally, drink a glass of water. Do NOT induce vomiting and call physician immediately. In case of eye contact, flush thoroughly with water and seek medical attention.

For skin contact, wash thoroughly with soap and water.

Use strictly in accordance with instructions for use. Buyer assumes all responsibility for safety and use not in accordance with label instructions. Seller cannot control user's handling, use, or effect of use and therefore makes no warranty, expressed or implied, nor accepts any direct or consequential damages beyond the purchase price.
