

HIGH PERFORMANCE ECO-FRIENDLY PRODUCTS

All-Surface ENVIROTOWELS^{NP}

PRODUCT DESCRIPTION:

SENTINEL'S ENVIROTOWELS^{NP} ALL-SURFACE WIPES represent the latest technology in cleaning and removing lead dust. Towels are designed for pre-cleaning prior to removal or encasement of lead and for final clean-up following lead abatement. Each towel is ready-to-use and presoaked with a biodegradable, low-odor solution. Each 290 pail contains 270 presoaked towels which are protected from contamination. **This product contains no hazardous solutions.**

DIRECTIONS: (Always follow product label instructions for best results.)

For Lead Dust Removal:

Simply tear off towels at perforation and wipe all surfaces (ceilings, walls, floors, windows, doors fixtures, cabinets, etc) until clean. Rinse if necessary. Contaminated towels should be disposed of according to federal, state and local regulations.

CAUTION:

May cause irritation. Do not use this product before reading the Safety Data Sheet
FOR INDUSTRIAL/PROFESSIONAL USE ONLY.
