

Safety Data Sheet

 Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

 Date of issue: 10/15/2023
 Supersedes: All previous versions
 Version: 3.0

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name Product form

: Sentinel 539 Clear Smoke & Odor Encapsulant with Antimicrobial Product Protection

: Mixture

1.2. Relevant identified uses of the substance or mixture and uses advised against

Uses of the substance/Mixture

1.3. Details of the supplier of the safety data sheet

Sentinel Products Inc. 8901 Wyoming Avenue North Brooklyn Park, MN 55445 Phone: (763) 571-0630 Toll-free: (800)-373-0633 www.senpro.com

1.4. Emergency telephone number

Emergency number

: 1-866-359-5661

: Antimicrobial coating

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification (GHS-US)

Not a hazardous substance or mixture.

2.2. Label elements

Not a hazardous substance or mixture.

GHS-US labeling

2.3. Other hazards

No additional information available

2.4. Unknown acute toxicity (GHS-US)

No data available

SECTION 3: Composition/information on ingredients

3.1. Substance

Not applicable

3.2. Mixture

No hazardous ingredients at concentration levels for which they would need to be taken into account.

SECTION 4: First aid measures		
4.1. Description of first aid measured	res	
First-aid measures general	 If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person. 	
First-aid measures after inhalation	: IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if breathing is affected. If breathing is difficult, supply oxygen.	
First-aid measures after skin contact	: IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes. If irritation develops or persists, get medical attention.	
First-aid measures after eye contact	 IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. If pain, blinking, or irritation develops or persists, get medical attention. Continue rinsing. 	
First-aid measures after ingestion	: IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center or medical professional. Get medical attention if you feel unwell.	
4.2. Most important symptoms and	d effects, both acute and delayed	
Symptoms/injuries after inhalation	: May cause respiratory irritation.	
Symptoms/injuries after skin contact	: May cause skin irritation.	
Symptoms/injuries after eye contact	: Direct contact with the eyes may be irritating.	
Symptoms/injuries after ingestion	: May cause gastrointestinal irritation.	
40/45/0000	Destinat 500 Olean Oracles & Oden	

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

4.3. Indication of any immediate medical attention and special treatment needed

6.4. Reference to other sections No additional information available SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe storage, including any incompatibilities T.2. Conditions for safe storage, including any incompatibilities Technical measures : Does not require any specific or particular technical measures.	No additional information available	
5.1. Extinguishing media : Foam. Dry powder. Carbon dioxide. Sand. Unsuitable extinguishing media : Water may be unsuitable as an extinguishing media, but helpful in keeping adjacent containers cool. 5.2. Special hazards arising from the substance or mixture Fire hazard Fire hazard : Not determined. Reactivity : Not determined. Reactivity : Not determined. Reactivity : Use water spray or og for cooling exposed containers. Exercise caution when fighting any chemical fire. On rot dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. SECTION 6: Accidental release measures : No specific emergency procedures 6.1. For non-emergency personnel : Wear Protective equipment as described in Section 8. Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. Frotective equipment : Wear suitable protective equip on face protection. Approved supplied-air respirator, in case of emergency. 6.1. For onergency responders : Wear suitable protective equip on the waster equipation and entry into severs or streams. Modifieds to the environment. : Soak up spills with inter solids, such as clay or diatomaceous earth as soon	SECTION 5: Firefighting measure	S
Unsuitable extinguishing media : Water may be unsuitable as an extinguishing media, but helpful in keeping adjacent containers cool. 5.2. Special hazards arising from the substance or mixture Fire hazard : Not determined. Explosion hazard : Not determined. Explosion hazard : Not determined. Explosion hazard : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire fighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : No specific emergency measures are required other than good laboratory hygiene and safety practices. 6.1.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.2. Environmental precautions Avoid release to the environment. 6.3. Methods and material for containment and cleaning up For containment : Contain any spills with dikes or absorbents to prevent migration and entry into severs or streams. Methods for cleaning up Section 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe handling any incompatibilities Technical measures : Does not require any specific or particular technical measures. 5.1. Precautions for safe handling Precautions for safe handling any incompatibilities Technical information available Section 7: Handling and storage 7.1. Precautions for safe handling any incompatibilities Technical information available Section 8. Store in dry, well-ventilated area. Keep container (losed when of in use. 7.2. Conditions for safe handling any incompatibilities Technical measures : Does not require a		
cool. cool. 5.2. Special hazards arising from the substance or mixture Fire hazard : Not determined. Explosion hazard : Not determined. Reactivity : Not data available. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. SECTION 6: Accidental release measures : No specific emergency procedures General measures : No specific emergency measures are required other than good laboratory hygiene and safety practices. 6.1.1. For non-emergency personnel Protective equipment Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders : Wear suitable protective cluting, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods for cleaning up : Contain any spills with inert solids, such as clay	Suitable extinguishing media	: Foam. Dry powder. Carbon dioxide. Sand.
Fire hazard : Not determined. Explosion hazard : Not determined. Reactivity : Not deta available. 5.3. Advice for firefighters : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. SECTION 6: Accidental release measures : No specific emergency procedures General measures : Near Protective equipment and emergency procedures 6.1. For non-emergency personnel Protective equipment Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions : Contain any spills with dikes or absorbents to prevent migration and entry into severs or streams. Mathods for cleaning up : Soak up spille with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13). 6.4. Reference to other sections : Soak up spille with inert solids, such as clay or diatomaceous earth a	Unsuitable extinguishing media	
Explosion hazard I. Not determined. Reactivity I. No data available. 5.3. Advice for firefighters Firefighting instructions I. Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting I. Do not enter fire area without proper protective equipment, including respiratory protection. SECTION 6: Accidental release measures I. No specific emergency procedures General measures I. No specific emergency measures are required other than good laboratory hygiene and safety practices. 6.1.1. For non-emergency personnel Protective equipment as described in Section 8. Protective equipment I. Wear Protective equipment as described in Section 8. Emergency procedures Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment Protective equipment I. Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions Avoid release to the environment. 6.3. Methods and material for containment and cleaning up Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods for cleaning up Soak up spills with inert solids, such	5.2. Special hazards arising from the	substance or mixture
Reactivity : No data available. 5.3. Advice for firefighters : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment. Including respiratory protection. SECTION 6: Accidental release measures : Do not enter fire area without proper protective equipment. Including respiratory protection. Sectivity equipment : No respiratory procedures General measures : No specific emergency procedures Energency procedures : Evacuate unnecessary personnel. Frotective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 61.1. For emergency responders : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 62. Environmental precautions : Contain any spills with dikes or absorbents to prevent migration and entry into severs or streams. Methods and material for containmert : Contain any spills with dikes or absorbents to prevent migration and entry into severs or streams.	Fire hazard	: Not determined.
5.3. Advice tor firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. SECTION 6: Accidental release measures : No specific emergency procedures General measures : No specific emergency measures are required other than good laboratory hygiene and safely practices. 6.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Ermergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions Avoid release to the environment. : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13). 6.4. Reference to other sections No additional infor	Explosion hazard	: Not determined.
Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical file. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. SECTION 6: Accidental release measures : No specific emergency procedures General measures : No specific emergency procedures Firefighting instructions, protective equipment and emergency procedures : No specific emergency procedures 6.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions Avoid release to the environment. : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods for cleaning up : Soak up spills with dikes or absorbents to prevent migrations (see Section 13). 6.4. Reference to other sections No additional information available : Soak up spills with inert solids, such as clay or diatomaceous earth as so	Reactivity	: No data available.
chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : No specific emergency measures are required other than good laboratory hygiene and safety practices. 6.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions Avoid release to the environment. 6.3. Methods and material for containment and cleaning up For containment : Contain any spills with dikes or absorbents to prevent migration and entry into severs or streams. Methods for cleaning up : Soak up spills with intert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13). 6.4. Reference to other sections No additional information available SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe storage, including any incompatibilities Technical measures : Does not require any specific or particular technical measures. Storage conditions : Store in dry, well-ventilated area. Keep container tightly closed in a cool place. 7.3. Specific end use(s)	5.3. Advice for firefighters	
SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : No specific emergency measures are required other than good laboratory hygiene and safety practices. 6.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions Avoid release to the environment. 6.3. Methods and material for containment and cleaning up For containment : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13). 6.4. Reference to other sections No additional information available SECTION 7: Handling and storage . Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Keep container closed when not in use. 7.1. Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions Avoid release to the environment. : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods and material for containment and cleaning up : Contain any spills with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13). 6.4. Reference to other sections No additional information available : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Keep container closed when not in use. 7.1. Precautions for safe handling Precautions for safe storage, including any incompatibilities Technical measures : Does not require any specific or particular technical measures. Storage conditions : Store in dry, well-ventilated area. Keep container tightly closed in a cool place. 7.3. Specific end use(s)		: No specific emergency measures are required other than good laboratory hygiene and safety
Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.3. Methods and material for containment and cleaning up : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13). 6.4. Reference to other sections No additional information available SECTION 7: Handling and storage : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Keep container closed when not in use. 7.1. Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Keep container closed when not in use. 7.2. Conditions for safe storage, including any incompatibilities : Does not require any specific or particular technical measures. Storage conditions : Store in dry, well-ventilated area. Keep container tightly closed in a cool place. 7.3. Specific end use(s) : Store in dry, well-ventilated area.	6.1.1. For non-emergency personnel	
6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions Avoid release to the environment. 6.3. Methods and material for containment and cleaning up For containment : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13). 6.4. Reference to other sections No additional information available SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Keep container closed when not in use. 7.2. Conditions for safe storage, including any incompatibilities : Does not require any specific or particular technical measures. Technical measures : Does not require any specific or particular technical measures. Storage conditions : Store in dry, well-ventilated area. Keep container tightly closed in a cool place.	Protective equipment	: Wear Protective equipment as described in Section 8.
Protective equipment Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions Avoid release to the environment. 6.3. 6.3. Methods and material for containment and cleaning up For containment : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13). 6.4. Reference to other sections No additional information available Sectron 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe storage, including any incompatibilities : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Keep container closed when not in use. 7.2. Conditions for safe storage, including any incompatibilities Technical measures : Does not require any specific or particular technical measures. Storage conditions : Store in dry, well-ventilated area. Keep container tightly closed in a cool place. 7.3. Specific end use(s)	Emergency procedures	: Evacuate unnecessary personnel.
Protective equipment Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency. 6.2. Environmental precautions Avoid release to the environment. 6.3. 6.3. Methods and material for containment and cleaning up For containment : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13). 6.4. Reference to other sections No additional information available Sectron 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe storage, including any incompatibilities : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Keep container closed when not in use. 7.2. Conditions for safe storage, including any incompatibilities Technical measures : Does not require any specific or particular technical measures. Storage conditions : Store in dry, well-ventilated area. Keep container tightly closed in a cool place. 7.3. Specific end use(s)	6.1.2. For emergency responders	
Avoid release to the environment. 6.3. Methods and material for containment and cleaning up For containment : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13). 6.4. SECTION 8: Exposure controls/personal protection

8.1. **Control parameters**

No exposure limits noted

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

8.2. Exposure controls

Appropriate engineering controls

Personal protective equipment

: Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment with flammable materials. Ensure adequate ventilation, especially in confined areas.

Hand protection

Eye protection

Skin and body protection

Respiratory protection

: Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl. Suitable gloves for this specific application can be recommended by the glove supplier.

- : Use eye protection suitable to the environment. Avoid direct contact with eyes.
- : Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.
- : Use NIOSH-approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory protective equipment.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and	chemical properties		
Physical state	: Liquid		
Color	: White, dries clear.		
Odor	: Slight.		
Odor Threshold	: No data available		
рН	: 8.25 – 8.75		
Relative evaporation rate (butylacetate=1)	: No data available		
Relative evaporation rate (ether=1)	: <1 Slower than ether		
Melting point	: No data available		
Freezing point	: No data available		
Boiling point	: 0 °C (215 - 290 °F)		
Flash point	: None to boiling		
Auto-ignition temperature	: No data available		
Decomposition temperature	: No data available		
Flammability (solid, gas)	: No data available		
Vapour pressure	: No data available		
Relative vapour density at 20 °C	: No data available		
Relative density	: No data available		
Solubility	: Complete solubility in water.		
Log Pow	: No data available		
Log Kow	: No data available		
Viscosity, kinematic	: 100 KU		
Viscosity, dynamic	: No data available		
Explosive properties	: No data available		
Oxidising properties	: No data available		
Explosive limits	: No data available		
9.2. Other information			
VOC content	: <5 g/L (Calculated)		
	*A zero V.O.C. coating by industry standard means the product contains less than 5 grams of V.O.C.'s per liter. Tints and colorants may add V.O.C.'s to the product.		

SECTION 10: Stability and reactivity

10.1. Reactivity

No data available.

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

10.2. Chemical stability

Stable under recommended handling and storage conditions (see section 7).

10.3. Possibility of hazardous reactions

None known.

10.4. Conditions to avoid

Freezing, extreme heat. Both may cause container to fail.

10.5. Incompatible materials

None known.

10.6. Hazardous decomposition products

Carbon oxides (CO, CO2).

SECTION 11: Toxicological information			
11.1. Information on toxicological effects			
Acute toxicity	: Not classified - Based on ingredients and their concentrations in the product, the product is not classified as acutely toxic.		
Skin corrosion/irritation	: Not classified - Based on ingredients and their concentrations in the product, the product is not classified for skin irritation.		
Serious eye damage/irritation	: No data for the mixture. Based on ingredients and their concentrations in the product, the product is not classified for eye irritation.		
Respiratory or skin sensitisation	: Not classified - Based on ingredients and their concentrations in the product, the product is not classified for respiratory or skin sensitization.		
Germ cell mutagenicity	: Not classified - Based on ingredients and their concentrations in the product, the product is not classified for germ cell mutagenicity.		
Carcinogenicity	: No data for the mixture. Based on ingredients and their concentrations in the product, the product is not classified for carcinogenicity.		
Reproductive toxicity	: No data for the mixture. Based on ingredients and their concentrations in the product, the product is not classified for reproductive toxicity.		
Specific target organ toxicity (single exposure)	: Not classified - Based on ingredients and their concentrations in the product, the product is not classified for STOT - single exposure.		
Specific target organ toxicity (repeated exposure)	: Not classified - Based on ingredients and their concentrations in the product, the product is not classified for STOT – repeated exposure.		
Aspiration hazard	: No data for the mixture. Based on ingredients and their concentrations in the product, and the viscosity of the product, the product is not classified as an aspiration hazard.		
Symptoms/injuries after inhalation	: No data for the mixture.		
Symptoms/injuries after skin contact	: No data for the mixture.		
Symptoms/injuries after eye contact	: No data for the mixture.		
Symptoms/injuries after ingestion	: No data for the mixture.		

Additional information: No data is available for the mixture. The information shown is based on the profiles of the ingredients and their concentrations in the product.

SECT	ION 12: Ecological informati	on
12.1.	Toxicity	
Ecology	r - general	: Aquatic toxicity rating not determined. All possible measures should be taken to prevent release into the environment.
12.2.	Persistence and degradability	
Sentir	nel 538 Clear Smoke & Odor Encaps	sulant
Persis	tence and degradability	Not established.
12.3.	Bioaccumulative potential	
No addi	tional information available	
12.4.	Mobility in soil	
No addi	tional information available	

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

12.5. Other adverse effects

No additional information available

SECTION 13: Disposal considerations		
13.1. Waste treatment methods		
Waste treatment methods	 Do not discharge to public wastewater systems without permit of pollution control authorities. No discharge to surface waters is allowed without an NPDES permit. 	
Waste disposal recommendations	: Dispose in a safe manner in accordance with local/national regulations.	

In accordance with DOT

Not hazardous for transport

Additional information

Other information

: No supplementary information available.

Transport by sea

No additional information available

Air transport

No additional information available

SECTION 15: Regulatory information

15.1. US Federal regulations

Sentinel 539 Clear Smoke & Odor Encapsulant with Antimicrobial Product Protection All chemical substances in this product are listed in the EPA (Environment Protection Agency) TSCA (Toxic Substances Control Act) Inventory or are exempt from listing.

15.2. International regulations

CANADA

No additional information available.

15.2.2. National regulations

No additional information available.

15.3. US State regulations

This product does not contain any substances known to the state of California to cause cancer and/or reproductive harm

Component	CAS #	State
Water	7732-18-5	Pennsylvania, New Jersey

SECTION 16: Other info	ormation
Indication of changes	: Revision 3.0: 15 October 2023
Other information	: Author: KAD
NFPA health hazard	: 1 - Exposure could cause irritation but only minor residual injury even if no treatment is given.
NFPA fire hazard	: 0 - Materials that will not burn.
NFPA reactivity	: 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.
HMIS III Rating	
Health	: 1
Flammability	: 0
10/15/2023	Sentinel 539 Clear Smoke & Odor 5/6

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations
